Total Visits by Year and Month

TreatmentCost by Age

**Highest patient volume:**

Gynecology has the most visits due to high outpatient demand.

**Top revenue diagnosis:**

Viral Infection generates the highest revenue from frequent and costly treatments.

**Top-performing cities:**

Mumbai leads in patient visits among all cities.

**Demographic patterns:**

Females dominate Gynecology, and middle-aged groups show the highest visit frequency.

**Doctor performance:**

A few top doctors handle most visits, showing uneven workload distribution.

**Seasonal trends:**

Visits peak during specific months aligned with seasonal illnesses.

**Highest cost age group:**

Older adults incur the highest treatment costs due to complex conditions.

**Preferred payment method:**

Credit Card is the most commonly used payment option.

**Age vs cost relationship:**

Age and cost show a moderate positive relationship with some outliers.
